

VEE CARE COLLEGE OF NURSING

PROSPECTUS

Introduction

Nursing Professionals play an important role in the health care delivery system. There is an acute shortage of qualified nurses in the country both for nursing services and education. Further, there is a need to further strengthen the roles of nurses and hence, to start relevant educational program was acute.

The main purpose of the Vee Care College of Nursing is to provide an educational program through which the student nurses will be prepared to assume responsibility in the primary, secondary and tertiary care of people as professional nurses. The graduates will also be capable of teaching and supervising student nurses in providing safe and quality health care in different settings and participate in administration of nursing services and education.

Veeras Trust

The Veeras Trust was established on 14th Feb. 2005 with the vision of imparting standard Medical and Paramedical educational at an affordable cost.

Vee Care College of Nursing

Vee Care College of Nursing was established in the year of 2010 at 1/5, Chettier Agaram Road, Sivabootham Village, Vanagaram, Chennai – 600 095. It provides a serene environment for learning and assimilation. It has all the basic amenities and facilities and is easily approachable from all corners of the City by road with readily available public transport. The railway station is just 8 kilometers away from the College campus. The College is pioneered in the use of the latest technology to develop flexible, high-quality educational programs for the nursing and Para-medical students. The entire academic program at the College revolves around the unique needs of students to equip them to fulfill their career responsibilities. The College is planned for doing pioneering work, in the field of Nursing Education and for imparting professional expertise, to the young aspirants, who will be groomed to dedicate themselves to the service of humanity.

Philosophy, Mission Statement and Objectives

Philosophy

College believes that

- Nursing is a dynamic, therapeutic and educational process in meeting the health needs of the individual, families and community.
- Professional nursing is a lifelong service to the people to obtain the optimum level of health.
